Platteville, Wis., Jan. 27 .- (P)-Willam N. Coffey, 51 year old bigamist and slaver of his wife. Mrs. Hattle Hales Coffey, 53, arrived here tonight a few hours after a farmer found the torso of a woman in the woods where Coffey confessed he buried the disembered parts of his wife's body.

A coroner's inquest will convene toorrow, authorities indicated, after Coffey is taken into the woods to point out where he buried the remaining portions of the woman's body. This will give the state its evidence to substantiate charges of murder, for which a life prison sentence is provided.

Stumbles Into Grave. Discovery of the torse of the woman resulted from the gathering tonight of a curious crowd residing near Riters' woods. Frank Olson, a farmer, discovered a mound of earth, which was soon cleared away, baring a gun-nymack and its contents, part of a fe-

Fort Lauderdale, Fla., Jan. 27.—(P)

Forty-one persons, including Sheriff
Paul C. Bryan of Breward county,
deputies, and policemen, were arrested
in a widespread series of raids by prohibition agents that lasted throughout today.

Four stills were destroyed and large
quantities of liquor were seized by
the agenta, who declared they had
uncovered one of the largest liquor
manufacturing and distributing bases
in the United States. The officers arrested were charged with conspiracy
to violate the prohibition act. The
others were charged with possessing,
selling, or transporting liquor. Sheriff
Bryan issued a statement denying his
guilt. He was released under \$5,000

HYDROXYL-FREE?

Cod liver oil during the ordinary process of extraction may absorb oxygen atoms from the air, forming hydroxyl compounds. The presence of these compounds causes rancidity and an obox-lous taste, and impairs the essential vitamines. Peter Möller's Hydroxyl-Free Cod Liver Oil is protected from the air throughout the whole process of extraction and manufacture; hence it is "Hydroxyl-Free."

It is palatable and odorless, and retains its full value of growth-promoting and antirachitic vitamines. This is why Hydroxyl-Free Cod Liver Oil is so highly recommended by medical men and people who know. Be sure to get Peter Möller's. It is worth a little more money to know you get the best. We now and then have heard teasing bits of and from this celebrated Chicago musician, but hast evening he played his own compositions on the plano.

In the piano group, his compositions are identical with his style of playing.

"Valse Tendre"—exactly descriptive of the title: "Valse Dialogue"—a large concert plece, sturdy or passioned, tender or graceful each in turn: "Rhapsody"—also a concert plece, one sweeping the entire range of the piano. Attractive melody, rich harmony, strength, tenderness abound in the compositions.

His songs were of slow tempo, reposeful, contemplative. I, for one, am glad, with some degree of understanding, to look with admiration to Louis Victor Saar.

Every sales executive has the power to largely control both his volume of sales and his cost of sales by the type of market he selects.

The economics of producing sales volume in concentrated markets as compared to scattered markets are generally understood. But the tremendous differences that exist between these two types of markets are not always fully known and appreciated.

The national average purchasing power per family in metropolitan markets is approximately three times the general average of small town and rural communities. When the factor of accessibility is considered in connection with purchasing power, that difference becomes astounding.

From a selling and advertising standpoint, there is no more thought-stirring statement than this:—

In this concentrated Greater St. Louis Market, The Billionarea, the average annual

> Production Per Square Mile Is 500 Times Greater

than that of the scattered small town and rural commun-

ities outside The Billionarea. Every acre in the Greater St. Louis Market averages a \$13,300 industrial crop as compared with an average agricultural crop of only \$11.64 per acre outside The Billionarea. The Billionarea is

One of America's Greatest Opportunities for Advertisers

not only because of low selling cost, due to concentration of people and buying power, but because of low advertising cost, due to the complete coverage of this market by one newspaper alone, the St. Louis Post-Dispatch.

Because its circulation is almost entirely concentrated in The Billionarea the Post-Dispatch reaches practically every home of buying consequence in the entire market—so that the advertiser can cover The Billionarea completely with this one newspaper at one advertising cost.

Advertisers recognize this value and advantage as shown by the fact that they place more advertising, local, national and classified combined, in the Post-Dispatch than in the second and third St. Louis newspapers added together.

The Billionarea—

The Greater St. Louis Market

The Billionarea is the Greater St. Louis market as it actually exists and as officially designed by the Audit Bureau of Circulations. Its boundary is simply the physical limits of metropolitan St. Louis on both the Missouri and Illinois sides of the Mississippi. It includes all (and only) that area where concentration of People, Dollars and Coverage (P+D+C) offers a volume market at low cost for advertisers.

P+D+C The Advertiser's Micrometer of

a Newspaper

The very principles that have been long recognized as fundamental in the analysis of any market are for exactly the same reasons fundamental in the analysis of a newspaper's market.

Those principles are the relation of Population, Dollars (or Purchasing Power) to Goverage.

The P+D+C Manual and the Book of Information about The Billionarea — the Greater St. Louis Market—will be mailed free to anyone interested in the advertising and sales opportunity of this market.

The following information is summarized from a letter of Mr. H. B. Flowers, President of New Orleans Public Service Inc.

New Orleans Public Service Inc. supplies electric power and light, gas and street railway service in the City of New Orleans, Louisiana. Properties directly owned and operated include all the plants now generating electric energy for commercial power and light, the entire gas manufacturing and distributing properties in the city and

SECURITY

Under a rate settlement with the city effected in 1921, a basis of valuation for rate making purposes was fixed, which together with subsequent additions amounted, as at November 30, 1926, to more than \$72,000,000, including property of the Railways Realty Company. The direct first mortgage lien of the First and Refunding Mortgage Bonds covers properties having a present value, as determined in accordance with the settlement ordinance, of about \$20,250,000 and the direct general mortgage lien extends over additional properties valued at mome than \$51,300,000, subject only to divisional issues of \$12,217,500; and such bonds are further secured by pledge of all stock, except directors' shares, of Railways Realty Company, whose property is valued at about 1525,000 and is subject only to \$20,500 bonds. Since the issue of the Series A bonds in 1922, the company, through consolidation proceedings, has brought under the direct lien of the First and Refunding Mortgage Bonds the properties of all of the former constituent companies with one minor exception, theretofore controlled through stock ownership, and certain other properties. The properties upon which the First and Refunding Mortgage Bonds are a first mortgage lien have thus been increased by approximately \$15,000,000. Included in the properties on which such bonds are a direct mortgage lien have been increased by about \$36,000,000. Included in the properties on which such bonds are secured by a direct first mortgage are important electric power and light and street railway properties and all the gas properties.

The mortgage provides that underlying bonds, as defined in the mortgage, can not be increased in amount and must be paid by maturity without extension. First and Refunding Mortgage

of common stock.

Gross revenues, and net revenues after taxes, available for interest and renewals and replacements, during the five calendar years ended December 31, 1925, and for the twelve months ended November 30, 1926, were as

Calendar Yours	Gross Revenues	Net Revenues
1921	\$14,853,426	\$4,082,975
1922	14,666,922	4,962,291

1925	15,752,045	5,480,862
*1926	17,629,471	6,495,040

Net revenues, as shown above, for the twelve months ended November 30, 1926, were over 3.4 times the maximum annual interest charge of \$1,864,995 on total Series A and B First and Refunding Mortgage 5% Bonds, including this issue, and all underlying divisional issues now outstanding. Such net revenues were more than 2.3 times the total of this maximum annual interest charge plus annual interest on outstanding General Lien 4½% Gold Bonds and 6% Mortgage Gold Income Bonds, both junior to the First and Refunding Mortgage Bonds.

has been organized under the Laws of the State of Delaware, to acquire, hold, sell and underwrite securities of any nature, both foreign and domestic. The Company is designed to afford to investors an opportunity to participate in a diversified investment, and in underwritings which might not be available to them as individuals.

The initial Board of Directors of the Company will consist of members of the firms of Lehman Brothers and Lazard Frères in equal numbers. No member of either of such firms shall receive any compensation for serving as director or officer of the Company.

CAPITAL JUNIOR TO DEBENTURES

The entire issue of Preferred Stock, accompanied by five-eighths of the Common Stock will be purchased for cash at \$120 and accrued dividends per share of Preferred Stock by Lehman Brothers and Lazard Frères in equal amounts. Such cash amounts to \$1,800,000 and after providing for all the organization expenses the Company will receive as the net proceeds of the securities now to be issued at least \$9,000,000, or 120% of the amount of the Debentures.

The Preferred Stock is entitled to \$120 per share and accrued dividends upon redemption or in liquidation.

PROVISIONS OF THE DEBENTURES

The Company will agree that so long as any Twenty-Five Year 5% Debentures, Series A, are outstanding, it will not create any funded debt, unless immediately after the creation thereof the net assets of the Company (before deducting funded debt) are equal to at least 120% of the funded debt.

The Company will also agree that so long as any of the Debentures are outstanding, it will not make any distribution upon, or purchase or redeem, stock of any class, if thereby the net assets of the Company (before deducting funded debt) would be reduced below 120% of the funded debt.

COMMON STOCK

The Debentures will carry non-detachable warrants entitling the holder to receive without cost Common Stock at the rate of 10 shares for each \$1,000 Debenture, on the record date for the initial dividend payable on such stock, or earlier at the option of the Company. If any Debentures are called for redemption prior to the date when warrants become exchangeable for Common Stock, the warrants pertaining to these Debentures may be detached.

The Certificates of Incorporation provides that no additional or new issue of stock of any class need be offered to the holders of Common

Guaranty Trust Company of New York, Trustee

A letter from Mr. Guido Donegani, President and Managing Director of the Company copies of which will be furnished upon request, is summarized by him as follows

The Company, generally known as "Monte-catini," with its affiliated companies is the largest manufacturer of chemical fertilizers and allied products in Italy and one of the largest in the world, as well as the largest producer in Italy of sulphuric acid, copper sulphate, nitric acid, nitro cellulose, dynamite and gunpowder, and chemical raw materials for the artificial silk

Montecatini manufactures approximately 60% of the total Italian production of chemical fertilizers. Through its extensive and efficient sales organization and trade agreements with other producers in Italy and in other countries the Company has a strongly predominant posi-tion in the distribution in Italy of all domestic and imported chemical fertilizers.

Ownership of mines which supply the greater part of its raw materials, favorable long term contracts for the purchase of phosphate rock, and control of its full electrical energy requirements on advantageous terms, place the Company on a sound and well integrated manufac-

Proceeds of issue are to be used for extension and improvements to existing facilities, for the construction of a plant near Venice for the recovery of aluminum from bauxite and two new hydro-electric plants in connection with the proposed aluminum plant and synthetic nitrate works now under construction, and for additional working capital and general corporate

This Issue
The Company agrees that, except for purchase money mortgages and liens, and except for pledges of materials or supplies, or accounts or bills receivable, as security for temporary loans in the usual course of current business, neither it nor its subsidiaries will mortgage or pledge any property without thereby securing these Bonds ratably with the obligation secured by such mortgage or pledge. Neither the Company nor any of its subsidiaries has at present any indebtedness secured by liens on materials,

supplies or receivables.

Neither the Company nor any of its subsidiaries has any other funded debt.

Physical properties of Montecatini and its Physical properties of Montecatini and its subsidiaries, excluding less than 75% owned subsidiaries and two small 100% owned companies, and excluding mines, according to a recent appraisal by Day & Zimmermann, Inc., have a cost of reproduction new, less depreciation, of more than \$28,700,000. The value of the mines, according to the same arrangement according to the tion, of more than \$28,700,000. The value of the mines, according to the same appraisal, determined on the basis of earning power, is more than \$9,900,000. All of the properties are free from lien. The Company's investments in other companies are coaservatively valued by it at \$4,000,000. Current assets as of September 30, 1926, at the then current exchange rate, including the proceeds of the present issue, are conservatively estimated to be more than \$34,150,000 and current liabilities less than \$11,650,000. Total assets so computed are more than \$76,750, Total assets so computed are more than \$76,750,000, as against current liabilities of \$11,650,000 and this issue. (Current liabilities include \$3,467,084 since repaid without reducing current assets and \$2,998,276 accrued taxes.)

The capital stock of the Company consists of 5,000,000 fully paid shares of 100 lire par value each of which 2,000,000 shares were sold within the past year at 200 lire per share, the Company realizing the equivalent of more than \$16,000,000. In addition the Company has authorized sufficient shares, not to exceed 1,000,-000, for issuance upon the exercise of stock purchase warrants to be issued in connection with the present financing. At present quoted prices the capital stock has an indicated market value of approximately \$47,500,000.

Net profits of Montecatini and its subsidiaries applicable to interest, converted into dollars at average prevailing rates of exchange, as audited by Price, Waterhouse & Co., but after increased charges for depreciation and depletion as determined by Day & Zimmermann, Inc., have been as follows:

1922.....\$3,180,062

Net profits as above for nine months ended September 30, 1926, as prepared from Company statements by Price, Waterhouse & Co. to insure uniformity of computation, but not audited by them, were \$4,514,465. This was at the rate of \$6,019,000 per annum, or more than 73/4 times

interest charges.

Foregoing earnings reflect no benefits from proceeds of this issue and only limited benefits in 1926 from extensive development program started in 1924 on which over \$10,000,000 has already been expended.

Each Bond when issued will carry a detachable stock purchase warrant entitling the holder to purchase 50 shares in the case of a \$1,000 Bond to purchase 50 shares in the case of a \$1,000 Bond and 25 shares in the case of a \$500 Bond of fully paid capital stock of the Company of the par value of 100 lire each at the following prices:

July 1, 1927, to June 30, 1930, \$11.50 per share;
July 1, 1930, to June 30, 1932, \$12.00 per share;
provided, however, that the price shall not be less than 100 lire per share.

The range in market price of the Company's stock on the Milan Bourse, dividend payments, and earnings per share (after increased depreciation and depletion as determined by Day & Zimmermann, Inc.) in recent years have been as follows:

The present price of the stock is 222 lire, equivalent at the current exchange rate to about \$9.50.

About three-fourths of Italy's population is engaged directly or indirectly in agriculture. The Government is co-operating with the fertilizer industry with notably successful results to increase the use of chemical fertilizer in order to improve crop yields and thereby reduce the imports of wheat and other food products.

Silver Price Soars on Heavy Chinese Buying New York, Jan. 21.—(P)—Speculative buying of silver by Chinese operators to cover their short transactions of recent months was said to be responsible today for an advance of more than one cent, in the price of bar silver, which touched 57% cents, compared with a quotation yesterday of 56%. The heavy purchasing of the metal also was attributed to a desire to increase the currency circulation in China, in connection with unsettled conditions in that country.

UNION TRUST COMPANY, DETROIT, MICHIGAN, TRUSTEE

The following information is summarized from a letter from Mr. Edward A. Loveley, Procident of Bagley-Clifford Corporation:

These bonds will be the direct obligation of Bagley-Clifford Corporation, which has been organized to improve a plot of ground at the corner of Bagley and Clifford Avenues, Detroit, comprising 29,729 square feet of land. The issue will be secured by a closed first mortgage on 25,729 square feet of land owned in fee, together with certain leasehold rights in 4,000 additional square feet, and on the 18-story fireproof office and store building and 2,000 seat theatre to be erected thereon. The building will contain approximately 4,100,000 cubic feet, and will provide 143,196 rentable square feet of store and office space, in addition to the theatrs.

Completion of the building, in accordance with the plans and specifications, is guaranteed by a surety bond of Fidelity and Deposit Company, of Maryland. The property is located in the downtown business section of Detroit, diagonally across the street from the Statler Hotel.

APPRAISALS The valuation of the land owned in fee and the milding when completed is shown in the following

Net annual earnings from the office building, stores, and theatre, applicable to the payment of principal and interest of this issue, after deductions for operating expenses, taxes, insurance, and rental under lease and after allowing for 10% vacancies in the office space, are estimated at \$398,603. Of the total estimated net earnings, \$228,603 will be derived from the office and store space and \$170,000 from the 30-year lease to United Artists Theatre Company of Michigan, guaranteed by United Artists Theatre Circuit, Inc. Either of these items is more than the greatest annual interest charge of this bond issue, and the aggregate earnings are more than twice the and the aggregate earnings are more than twice the interest charge. The charge against the property's earnings for the annual rental of the leased portion of the property is \$10,000 a year during the term of this issue, which rental is very small in comparison to the total estimated earnings.

On the basis of the above appraisals, this bond issue is 58.90% of the value of the mortgaged

The final maturity of the issue of \$1,870,000 is substantially less than the present value of the land

The New York Trust Company, New York

HISTORY AND BUSINESS. National Public Service Corporation, Incorporated under the laws of Virginia in 1923, controls through stock ownership companies furnishing electric light and power, gas, water, ice and/or steam service to communities in states along the Atlantic Seaboard, namely: New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, Georgia, Florida and West Virginia. The territory in New Jersey includes a portion of the great metropolitan district tributary and suburban to New York City. Through these companies 240,872 customers are being served, of which 198,724 are electric, 39,871 gas, 1,761 water and 516 steam. The System also furnishes electric railway and bus service in sections of Pennsylvania, Ohio, Virginia and North Carolina, serving an aggregate population of about 964,000.

The electrical systems have an installed generating capacity of 237,896 H. P. and 1,968 miles of high tension transmission lines. The gas systems include generating plants of a daily capacity of 20,140,000 cubic feet, and 640 miles of gas mains. The water systems have a daily capacity of 6,336,000 gallons, and 38 miles of water mains. The electric railway systems consist of 360 equivalent miles of single track. During the year ended November 30, 1926, the total energy generated by the systems was 429,632,745 K.W.H and there were made 1,631,013,000 cubic feet of gas.

The National Tile Company

Ten-Year 61/2% Gold Debentures

To be dated February 1, 1927

The following information is from a letter to in from Mr. Louis S. Jones, President of the Company.

The National Tile Company was recently incorporated under the laws of the State of Chio as the successor to the business of a Company of the same name, incorporated under the laws of the State of Indiana. The business was originally established in 1889. The Company is probably the largest manufacturer of white wall tiling and mosaic floor tiling in the country. Its plant is located at Anderson, Indiana.

The Company's sales and net earnings available for interest and Federal Taxes, after allow-ance for depreciation, for the five-year period, 1922 to 1926 inclusive, as audited by Price, Water-house & Co., have been as follows:

Average annual net earnings for the period given above, were \$485,023, or 7.46 times maximum annual interest charges on this issue of Debentures. Net earnings for 1926 were 10,7 times the mamimum annual interest requirements on these Debentures. The Company has been operating at capacity for a period of 8 years, manufacturing about 80% of its output against contracts. It now has on its books unfilled orders sufficient for about sixty days operation.

The Company's adjusted balance sheet as of December 31, 1926, will show net tangible assets licable to these Debentures of \$2,388,848 or \$2,388 for each \$1,000 Debenture.

CAPITALIZATION

To mature February 1, 1937

INDENTURE PROVISIONS

These Depentures will be limited to the aggregate amount of \$1,000,000 and will be issued under an indenture to The Union Trust Company, Cleveland, as Trustee, which will provide, among other covenants, that the Company will not create any mortgage or other liens on its fixed assets (except purchase money mortgages) without ratably securing these Debentures.

The indenture under which these Debentures are to be issued will provide for a Sinking Fund, for the Ten-Year 61/2% Gold Debentures, as follows:

(a) The sum of \$50,000 annually, payable in semi-annual installments beginning February

(b) An additional Sinking Fund of a sum equal to 20% of that part of the net earnings in each calendar year, which shall be in excess of the sum of \$300,000, as defined in the indenture.

We offer these bonds when, as and if issued and received by us and subject to approval of counsel. It is expected that delivery will be made in the form of interim receipts or definitive Debentures on or about February 3, 1927

My Smile Shows a row of pearls
By Edna Wallace Hopper.
I am asked by countless peopl how I got such pretty teeth. And how I keep them sound and glisten-

on my teeth
about 30 minutes daily. I
used a cleanser, then a
polisher, then
an antiseptic
mouth wash.
And I forced
magnesia between the
teeth to neu-

tralize all acids.

All this I did under dental advice, and I consulted high authorities. But now the great experts have com-bined all these helps in one tooth paste. I just apply that, and it does in a minute, all I did with many applications.

This new-type dentifrice is called Quindent, which means five in one. It is made by Quindent Laboratories to meet modern requirements. The makers supply me ten-day samples and I will gladly mail one to anyone who asks. The coupon will bring it with my Beauty Book. Even one night's use will bring you new conceptions of a tooth paste.

The most embarrassing mement of my life occurred when I was the new civics teacher in my home town, and I went to the polls to vote for the first time. As-a guide in voting, I had taken a sample ballot already marked. Can you imagine my embarrassment when, upon leaving the building, one of the judges came running after me,

Pyorrhea penalizes 4 out of every 5

What a grim penalty Pyorrhea exacts for neglect! It spreads its poison through the system, undermines health, destroys precious youth. And four persons out of every five after forty (and thousands younger) get caught in its relentless grip.

Yet with reasonable care, you need never fear Pyorrhea. If you have tender, bleeding

gums see your dentist at once for an examination. And start now the habit of using Forhan's for the Gums.

Used regularly and in time, Forhan's prevents Pyorrhea or checks its vicious course. It firms the gums and keeps them healthy. It protects teeth and keeps them white.

Ask your dentist about Forhan's. It is the formula of R. J. Forhan, D. D. S., and contains a percentage of Forhan's Pyorrhea Liquid, used by dentists for 15 years in the
